

Biography for Christopher J. Roscetti

Mr. Christopher Roscetti serves as the Technical Director at the Defense Nuclear Facilities Safety Board (DNFSB), a position he has held since June 2018. In this role, he is responsible for approximately 65 scientists and engineers and developing the staff work for the Board in performing the DNFSB mission. The mission of the DNFSB and of the Board in particular is to provide independent analysis, advice, and recommendations to the Secretary of Energy to inform the Secretary in providing adequate protection of public health and safety at defense nuclear facilities.

As a member of the Senior Executive Service, Mr. Roscetti has held several positions within the Agency. Prior to his appointment as the Technical Director at the DNFSB, he served as the Deputy General Manager, the Associate Technical Director for Nuclear Programs and Analysis and the Associate Technical Director for Engineering Performance. Prior to joining the SES, Mr. Roscetti worked on the technical staff to evaluate safety programs and equipment at DOE's defense nuclear facilities including conduct of operations programs; training programs; and facility safety system design, functionality, and maintenance.

Prior to joining the DNFSB, Mr. Roscetti served in the United States Navy as a submarine officer onboard the USS LOUISIANA (SSBN 743)(Gold). He also worked as an Action Officer for Naval District Washington in its role as the naval component to the Joint Force Headquarters, National Capital Region.

Mr. Roscetti earned a Master of Engineering degree in Reliability Engineering from the A. James Clark School of Engineering at the University of Maryland, a Master of Business Administration degree from the Robert H. Smith School of Business at the University of Maryland, and a Bachelor of Science degree in Systems Engineering from the United States Naval Academy.
