

Instructions for Submitting Oppositions Letter to U.S. Forest Service about the proposed LANL Electrical Power Capacity Upgrade (EPCU) Project

Questions? Contact CCNS at 505 986-1973 or ccns@nuclearactive.org

In order for your oppositions to be considered by the US Forest Service, the instructions below apply to both the beginning and end of your submittal. To distinguish between the instructions and the body of the oppositions, the oppositions are in **Times New Roman font**.

Feel free to change the letter to reflect your concerns.

Please take a few moments to submit your oppositions to the congressional delegation through their websites. Links below.

Submit your oppositions to the U.S. Forest Service by Monday, October 28th, 2024 by 11:59 pm Mountain Time.

There are three options below. The email option appears to be the easiest because you would only need to add your name and address at the end. Choose the option that works best for you.

1. You can submit your objection and any attachments online at the following link: [US Forest Service NEPA Projects Home](#)
2. Or, you can email them to: objections-southwestern-regional-office@usda.gov
You should receive an automated response to confirm the electronic objections have been received.
3. Or, mail them in to the Forest Service Regional Office:

Reviewing Official, Michiko Martin, Regional Forester
333 Broadway Blvd SE
Albuquerque, NM 87102

For the signature at the end of the objections letter, include your name and address, along with a telephone number or email address, if available.
