

Dear Neighbor,

The Air Force will be hosting an Open House for the Kirtland Air Force Base (KAFB) Bulk Fuels Facility project on Thursday, July 22, 2021 from 5:30 to 7:30 p.m.

After more than a year of Coronavirus restrictions, we are thrilled to be able to welcome you to this in-person event! This open house will be held at the KAFB Groundwater Treatment System facility, which is located just inside the Ridgecrest Drive Gate near Bullhead Park. Because of this special event, guests will not be required to pass through the normal security procedures to enter KAFB at this location. Please, no weapons or illegal substances, and current New Mexico Coronavirus protocols will be followed.

Air Force environmental experts will be available at the facility to explain clean-up activities and answer questions. It has been a long year with many challenges, but our team has been working non-stop to protect our environment.

If you would like additional information, please contact Brannon Lamar at 377 Air Base Wing Public Affairs at (505) 846-5991 or by email, brannon.lamar@us.af.mil.

We ask that you share this notification with others in your community and hope you can join us at the upcoming event!
